Educational aims of the programme

The programme aims to develop individuals with a critical understanding of Sport Coaching through theoretical, practical and work related learning experiences and will:

- Provide learning experiences that facilitate and encourage personal and professional development to enhance student employability.
- Enhance students capacity to reflect upon their performance to improve their self awareness, progression and development. Encourage a critical appreciation of the interdisciplinary nature of the subject area of sport coaching with particular reference to theories, principles, applications and methodologies.
- Develop a critical understanding of pedagogical theories and practice that relevant to sport coaching.
- Develop critical understanding of the coaching process, and an appreciation of the contextual and individual influences upon the process.
- Develop students ability to understand, evaluate and critically apply scientific principles to the physical and psychological preparation of the participant along the sport pathway.
- Students will gain a comprehensive perspective on sports coaching opportunities in contemporary society, reflecting key trends and the relevant national benchmarks.
- To encourage students to engage with the development of employability skills by completing a self-awareness statement.

Alternative Exit/ Interim Award Learning Outcomes - Certificate of Higher Education

A student who is eligible for this award will be able to:

- Demonstrate an understanding of key scientific concepts that underpin sports performance
- Demonstrate appropriate strategies for problem solving
- Communicate accurately using appropriate pedagogical strategies
- Exhibit the qualities required for employment requiring the use of personal decision making and responsibility
- Recognise how they develop as individuals through personal development planning and tutorial guidance and support

Alternative Exit/ Interim Award Learning Outcomes - Diploma of Higher Education

A student who is eligible for this award will be able to:

- Evaluate and analyse key scientific concepts that underpin sports performance
- Identify and apply appropriate approaches to problem solving in coaching
Identify and evaluate vocational skills that enable effective performance in an applied setting
Evaluate and apply a range of leadership and personal development strategies
Consider the application of coaching principles to a range of theoretical coaching models and frameworks

**Target award Learning Outcomes - Bachelor of Science with Honours**

A student successfully completing the programme of study will have acquired subject knowledge and understanding as well as skills and other attributes.

**Knowledge and understanding**

*A student who is eligible for this award will be able to:*

A1. Demonstrate an understanding of the interface between theoretical and practical approaches to sport coaching.
A2. Demonstrate an understanding of sport coaching through reflective practice.
A3. Demonstrate a critical understanding of relevant research methods applicable to the analysis of a variety of sport coaching contexts.
A4. Demonstrate an understanding and critical awareness of the moral, ethical and legal issues which underpin both the study and practice of sport coaching.
A5. A critical appreciation of sport coaching in a variety of settings and groups and individuals.

**Teaching, learning and assessment methods used to enable outcomes to be achieved and demonstrated**

Acquisition of outcomes is gained through a range of teaching and learning approaches which will be used dependent on the nature of the subject matter, the student learning experience and the level of study. Students will be taught in differing size groups to support the nature of the activity. Sport coaching practical sessions will cover a range of activities and will support the students in developing their own skills, competencies and abilities within practical activity and coaching. In addition national governing bodies of sport will also be involved in the delivery of specific practical areas. This knowledge will be supplemented by more theoretically focused learning to ensure a rounded and comprehensive view of the subjects studied. Work related learning will be used to bring real life experiences into the curriculum and will allow students a chance to either work with outside agencies or to work with real problems and case studies. Work based learning forms an integral part of the programme and offers students the chance to engage in a placement of their choice and start to create their own connections and networks. Through personal tutor groups, PDP, WRL and dissertation, students get a chance to work with their own goals and actions and pro-actively move themselves towards their future career. Tutorial support is given on all modules through a variety of processes and personally through the personal tutor system.

**Assessment**

Formal assessment of knowledge and understanding is through, assessed coursework such as essays and reports and individual and group presentations. Presentations, projects and coaching portfolios are based in the main on individual research. To align with the overall objectives of the programme, assessment will embrace both formative and summative approaches, and be constructively aligned to the learning outcomes. Assessments will be undertaken regularly; will be efficiently administered; and will be student centred. Attention will attempt to focus to the timely delivery of feedback on both formative and summative assessments.

**Skills and other attributes**

**Intellectual Skills**

*A student who is eligible for this award will be able to:*

B1. Demonstrate competence in Information, Communication Technology skills and be able to use this within sport coaching.
B2. Gather, understand and critically evaluate primary and secondary evidence to support and develop theoretical and conceptual perspectives.
B3. Evaluate coaching programmes across coach and participant pathways.
B4. Evaluate and appropriately apply relevant theories and concepts that enable an understanding of the development of sport coaching in a social and cultural context.
B5. Evaluate a range of leadership and personal development strategies based on management of themselves and groups.
B6. Analyse the role that management processes play in the development of sports coaching.

B7. Demonstrate a rational, imaginative and logical approach towards the skill of thinking through solutions to challenges in the development of sports coaching.

**Teaching, learning and assessment methods used to enable outcomes to be achieved and demonstrated**

Intellectual skills are promoted, practiced and developed through active and experiential learning processes. The programme uses a variety of teaching methods including, case studies, work related learning opportunities, group work, reflection and independent work. All modules in the programme emphasise student centred learning, involving student in task based activities followed by discussion, feedback and a wider application of the concepts. These skills will be built up on and developed as a student progresses through their programme of study. Guest lectures involving delivery of current initiatives and personal Reflections of practitioners.

**Assessment**

Intellectual skills (B1-B6) are assessed throughout the programme in coursework for example case studies, essays, individual and group presentations. B6 can be demonstrated and developed both explicitly and implicitly during workshops, reflective writing, peer review processes, and group work.

**Professional practical skills**

A student who is eligible for this award will be able to:

C1. Identify the importance of partnerships and networking in sport coaching.

C2. Assist in the organisation and delivery of appropriate sport coaching.

C3. Identify and analyse the structure within which sport coaching takes place and the policies which affect it.

C4. Develop a competence in a chosen specialism and support this knowledge in a practical way.

C5. Identify and critically appraise the range of employment and career pathways that are available within the sport coaching industry.

C6. Develop practical and transferable skills which will facilitate interaction and co-operation with a range of people.

C7. Develop an ability to co-ordinate and manage effectively the variety of inputs to a successful sport coaching programme.

**Teaching, learning and assessment methods used to enable outcomes to be achieved and demonstrated**

All students receive initial generic and module specific guidance and specialist induction on the identification and use of multimedia materials in the LRC and alternative local and non-local sources. Guidance for the production of coursework - essays, oral presentations, research projects and portfolios are provided at a modular level. Criteria for assessment accompany individual assignments indicative and essential sources accompany course outlines. These skills will be built up on and developed as a student progresses through their programme of study.

**Assessment**

Skills C1-C7 are assessed throughout the programme in, coursework for example case studies, essays, individual and group presentations, and work related learning.

**Transferable / key skills**

A student who is eligible for this award will be able to:

D1. Evaluate own performance through self-appraisal and reflection.

D2. Demonstrate personal performance in key skills and the organisation of practical activities.

D3. Use oral and written communication skills in a variety of contexts.

D4. Begin to formulate areas of specialism in the field of sport coaching.

D5. Work effectively as the member of a team to achieve agreed objectives.

D6. Consider and solve problems effectively and efficiently.

D7. Work independently, co-operatively and critically using planning and time management skills.

**Teaching, learning and assessment methods used to enable outcomes to be achieved and demonstrated**

A range of methods will be employed to help students to develop these skills and these will be progressively developed through the programme. Feedback will be given to help student to appraise their own performance.
and development and personal tutor groups will be used as a peer support mechanism and a place to practice. (D2) Oral and written feedback will be given regularly. (D3) Deadlines across modules on the programme are monitored carefully to minimise bunching and promote effective time management. (D1, D6, D7) Group work is encouraged through task based activities and discussions (D5, D6).

Assessment

Effective communication is assessed through all areas of learners work. (D3) Students are encouraged to identify their strengths and weaknesses through PDP and consider these skills in different contexts (individual, student and coach). At level 6 assessment of the attainment of transferable skills is undertaken both explicitly within the assessment criteria of relevant modules and implicitly through the successful completion of the major project.

Programme structure - programme rules and modules

Programme rules

The course is studied over three years full time. Modules are semesterised and are worth multiples of 10 credits. Each module credit represents 10 hours of study; therefore a 20 credit module would be equivalent to 200 hours of study. At each level of study 120 credits are required to complete the year. It is primarily a university site-based course supplemented with periods of work related learning, which are core at all levels.

Placements will feature in the Employability and Professional Development pathway through the programme.

Students have successfully completed the Foundation Degree in Disability Sport Coaching and Development run through Greenbank College are eligible for direct entry into Level 6.

The programme will offer the opportunity of an additional study year abroad following Level 5. Students will be enrolled on a 480 credit honours with study abroad programme. Of those 480 credits, 120 will be taken via a Level 5 study abroad module (5468SSLN Study Year Abroad – Sport Coaching). The modules to be studied in the host institution must be agreed in advance. The Level 5 mean for the final award mark will be calculated based upon the 240 credits at Level 5.

Programme: 35749-3500006885 Version: 01.01 Start date of programme: 01-AUG-17
**Information about assessment regulations**

All programmes leading to LJMU awards operate within the University's Academic Framework. [https://www.ljmu.ac.uk/about-us/public-information/academic-quality-and-regulations/academic-framework](https://www.ljmu.ac.uk/about-us/public-information/academic-quality-and-regulations/academic-framework)

**Opportunities for work-related learning (location and nature of activities)**

Here at LJMU we feel it is vitally important to enable students to gain as broad a range of employment related skills as possible. To that end, we ensure that work based learning (sometimes known as work placement) is an integral part of the course. WRL not only provides an opportunity to gain first hand experience, it also provides students with valuable contacts and information regarding possible employment upon graduation. Work based learning is an integral part of the programme. The following opportunities are provided at each level:

**Level 4** - In Employability and Professional Development 1 (4466SSLN) students examine employability and personal development through effective coach practice and work based learning. The module provides opportunities to observe and engage in coaching practice within a variety of sports settings.

**Level 5** - Employability and Professional Development 2 (5466SSLN) encompasses a 4 hours x 10 weeks of WRL in a coaching specific placement that exposes the student to the opportunity to implement theory through practice related to their individual goals and objectives.

**Level 6** - Employability and Professional Development 3 (6466SSLN) consists of 6 hours x 10 weeks where the placement is focussed on either their chosen pathway or specialism or a level of coaching placement relevant to their current coach education level.

All students are encouraged to source their own placement based on their individual work related goals and aims. The University will then look to assist the student in finding a placement if the student cannot source a placement by a required date so that all students will be subject to an equitable work related learning opportunity.

**Criteria for admission**

**A/AS Level**
112 UCAS tariff points from minimum 6/12 unit awards (one of which should be subject-related).

**BTEC National Diploma**
Merit, merit distinction profile

**AVCE**
280 points

**Irish Leaving Certificate**
280 points

**Scottish Higher**
280 points

**International Baccalaureate**
280 points

**Access**
Pass in a relevant kite-marked course

**Higher national diploma**
Pass
Other
GCSE English Language and Maths Grade C or above or equivalent.
Enhanced DBS disclosure.
Greenbank Sports Academy, Foundation Degree in Disability Sport Coaching and Development (articulated progression route).

Mature entry
Enquiries are encouraged from candidates from non-standard academic backgrounds who can demonstrate motivation and potential to complete their chosen programme of study. Mature students are encouraged to apply early in order that proper consideration and academic guidance can be given.

Overseas qualifications
For undergraduate course please apply through UCAS, applicants will be considered in line with normal entry requirements. International students must possess a minimum IELTS (or equivalent) score of 6.0.

External Quality Benchmarks
All programmes leading to LJMU awards have been designed and approved in accordance with the UK Quality Code for Higher Education, including the Framework for Higher Education Qualifications in the UK (FHEQ) and subject benchmark statements where applicable.

The University is subject to periodic review of its quality and standards by the Quality Assurance Agency (QAA) Published review reports are available on the QAA website at www.qaa.ac.uk

Programmes which are professionally accredited are reviewed by professional, statutory and regulatory bodies (PSRBs) and such programmes must meet the competencies/standards of those PSRBs.

Support for students and their learning
The University aims to provide students with access to appropriate and timely information, support and guidance to ensure that they are able to benefit fully from their time at LJMU. All students are assigned a Personal Tutor to provide academic support and when necessary signpost students to the appropriate University support services.

Students are able to access a range of professional services including:
• Advice on practical aspects of study and how to use these opportunities to support and enhance their personal and academic development. This includes support for placements and careers guidance.
• Student Advice and Wellbeing Services provide students with advice, support and information, particularly in the areas of: student funding and financial matters, disability, advice and support to international students, study support, accommodation, health, wellbeing and counselling.
• Students studying for an LJMU award at a partner organisation will have access to local support services.

Methods for evaluating and improving the quality and standards of teaching and learning
Student Feedback and Evaluation
The University uses the results of student feedback from internal and external student surveys (such as module evaluations, the NSS and PTES), module evaluation questionnaires and meetings with student representatives to improve the quality of programmes.

Staff development
The quality of teaching is assured through staff review and staff development in learning, teaching and assessment.

Internal Review
All programmes are reviewed annually and periodically, informed by a range of data and feedback, to ensure quality and standards of programmes and to make improvements to programmes.

External Examinining
External examiners are appointed to programmes to assess whether:
• the University is maintaining the threshold academic standards set for awards in accordance with the FHEQ and applicable subject benchmark statements
• the assessment process measures student achievement rigorously and fairly against the intended outcomes of the programme(s) and is conducted in line with University policies and regulations
• the academic standards are comparable with those in other UK higher education institutions of which external examiners have experience
• the achievement of students are comparable with those in other UK higher education institutions of which the external examiners have experience

and to provide informative comment and recommendations on:
• good practice and innovation relating to learning, teaching and assessment observed by external examiners
• opportunities to enhance the quality of the learning opportunities provided to students

Please note:
This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content, teaching, learning and assessment methods of each module can be found in module and programme guides.
