Teaching, Learning and Assessment

Teaching, Learning and Assessment	Teaching and Learning on the programme is via lectures, tutorials, problem solving sessions, seminars, workshops, computer sessions and participation in projects. Assessment strategy for the programme includes a combination of examinations and coursework assignments requiring the submission of reports, essays, computer-based projects, and a research-based dissertation.
-----------------------------------	---

Opportunities for work related learning

Opportunities for work related learning
Work-related learning is included within the programme so students have the opportunity to engage in real world projects and activities. In doing so, students will be able to apply and further develop their knowledge and employability skills. Work-related learning may take different forms, the most common being: simulations of workplace activity and employer-driven case studies.

Entry Requirements

Type	Description
Alternative qualifications considered	An Honours degree taught in English in a relevant subject with a minimum 2:2 classification or a professional qualification of equivalent standing together with such relevant professional experience as deemed appropriate by the Department. Applications for admission that involve credit from prior learning and/or credit transfer will be considered by the Faculty Recognition Group (FRG) in accordance with the Academic Framework prior to the commencement of study. Candidates who have not completed an Honours degree taught in English, are required to demonstrate proficiency in English equivalent to IELTS 6.0.
