## Teaching, Learning and Assessment

Acquisition of knowledge is achieved through a broad range of teaching methods including lecture, seminar, workshop, action workshop, case study, video, practical, business game simulation; 'real-world' business issue and international and national case studies. Assessment methods are specified in each module handbook but include unseen examination, open book examination, coursework assignments and presentations. Intellectual skills are developed through practical (case study or 'real-world') project work, tutorial work and coursework assignments. Open ended practical project is designed to permit students to demonstrate achievement of all the learning outcomes in this category. Examples of teaching and learning on the programme include; Lectures Tutor led seminars Student led seminars Workshops Self directed learning Business game simulations Work placement year (optional) Intellectual skills are assessed. A variety of assessment methods are used and formal examination, coursework (including formal reports and presentations), Examples of assessment on the programme include; Essays Reports In-Class Tests Unseen Examinations Open Book Examinations Portfolios Practical skills are developed in a co-ordinated and progressive manner throughout the three levels of the programme. In the lower levels attention is focused on the acquisition of basic skills, while at the higher levels more advanced techniques are introduced. A variety of assessment methods are used to assess practical skills including practical tasks, formal reports, presentations, portfolios. Transferable skills are generally incorporated within modules and related to relevant assessments as appropriate. Transferable skills are assessed. A variety of assessment methods are used including examinations, portfolios of learning, formal reports, ICT tasks, presentations and business game simulations.

## Opportunities for work related learning

The four elements of Work Related Learning (WRL): 1. Learning about oneself 2. Learning and practising skills 3. Experiencing the world of work 4. Experiencing and learning how to learn and manage oneself in a range of situations will be addressed through the continuing development of graduate skills that are embedded into the programmes as well as via campus based work related learning. With respect to elements 1, 2 and 4 the Team are of the opinion that the comprehensive mapping exercise of the graduate skills clearly demonstrates that these elements are incorporated into the Programmes, as all the skills will be taught, practised and assessed via the core modules.
