Teaching, Learning and Assessment

The methods used to enable outcomes to be achieved and demonstrated are as follows:

Teaching is delivered via lectures, workshops, tutorials, group work, supervision, online activities, study trips, independent learning and private study. All of these methods are complemented by staff and student use of and interaction within the virtual learning environment to support and facilitate student learning.

Modes of assessment used in the programme are: essays, examinations (including multiple choice, unseen, seen and 'take-home'), portfolios (skills and reading), presentations (seminar, group), SPSS data-files, reports, poster presentations, case studies, article reviews, blogs, visual essays, Geographical Information Systems reports; research plans, research reports, dissertation proposition and dissertation.

Intellectual skills are strongly linked to the development of knowledge and understanding. Lectures provide the foundations of and models for students to develop and consolidate their intellectual skills, while workshops, tutorials and independent learning provide opportunities for students to practice and apply these intellectual skills.

The assessment of intellectual skills is closely linked with subject knowledge and assessment, however the focus is upon the student's ability to recognise, construct and defend arguments, to undertake critical analysis and to identify and resolve intellectual problems. A variety of written coursework and exam based assessments focus directly on the student's ability to construct rigorous arguments and analysis. While the more applied nature of some assessments (briefing papers, blogs, case studies, reports), particularly those requiring students to understand and undertake Criminological research encourages students to creatively develop their intellectual skills.

All teaching and learning activities focus on developing and improving communication skills: lectures enable students to become effective listeners who can assimilate ideas and information; discussions in workshops and small group settings develop spoken communication skills, collaboration and interpersonal skills. Students are also encouraged and supported, via tutor guidance and the VLE, to undertake independent learning which, in turn, promotes planning, organisational and time-management skills.

All assessment utilized on the programme encourages students to develop their communication skills and to present arguments and ideas with precision and clarity. Achievement of good time management and organizational skills is demonstrated by students completing work on time to a satisfactory standard.

These skills and abilities are integrated into the teaching and learning activities and methods described above. They are central to every activity that is undertaken as part of study for the degree.

The development of transferable skills is a core aim of the programme, with the study of criminology allowing students to apply their knowledge and aptitude in a variety of employability settings.

Students will be allocated a personal tutor who will teach them at this level and normally remain their personal tutor throughout their time at LJMU.

Programme structure - programme rules and modules

The programme is taught within the University Academic Framework. Students must take 120 credits at each level of the programme (Levels 3, 4, 5 and 6). Each Level of the programme should normally be completed in one academic year. Modules are of two types: core and options. Modules are all 20 credits with a 120 credit studying abroad module (L5).

The programme will offer the opportunity of an additional year of study abroad following Level 5. Students will be enrolled on a 600 credit honours with study abroad programme. Of the 600 credits, 120 will be taken via 5106CRIM Study Year Abroad - Criminology. The modules to be studied at the host institution must be agreed in advance. The Level 5 mean for the final award mark will be calculated upon the 240 credits at Level 5

At Levels 3 and 4 students will undertake a core programme of 120 credits.

At Level 5 students will undertake 120 credits comprising 80 core credits and 40 optional credits.

At Level 6 there will be no core modules. Students will undertake 120 credits of optional modules to complete their programme.

The only restrictions to this free choice within the Programme Rules are as follows:

Students who wish to undertake a Dissertation must choose to take 6200CRIM Dissertation Part 1 and 6201CRIM Dissertation Part 2. You can undertake 6200CRIM without undertaking 6201CRIM.

Students who wish to undertake Criminology at Work must choose to take 6218CRIM Criminology at Work 1 and 6219CRIM Criminology at Work 2. You can undertake 6218CRIM without undertaking 6219CRIM.

Students cannot undertake both a dissertation and Criminology at Work. Hence 6200CRIM and 6218CRIM are barred combinations. Similarly, 6201CRIM and 6219CRIM are also barred combinations.

Information about assessment regulations

All programmes leading to LJMU awards operate within the University's Academic Framework.
<https://www.ljmu.ac.uk/about-us/public-information/academic-quality-and-regulations/academic-framework>

Opportunities for work-related learning (location and nature of activities)

All LJMU undergraduate programs are required to incorporate into a L4 module an assessment item of the submission of a Future Focus assessment. Students have the opportunity to choose from employability focussed modules at L5 and L6, while the programme's PDP system provides opportunities for students to reflect on and document their achievements inside and outside of university and think about future employability paths.

Methods for evaluating and improving the quality and standards of teaching and learning

Student Feedback and Evaluation

The University uses the results of student feedback from internal and external student surveys (such as module evaluations, the NSS and PTES), module evaluation questionnaires and meetings with student representatives to improve the quality of programmes.

Staff development

The quality of teaching is assured through staff review and staff development in learning, teaching and assessment.

Internal Review

All programmes are reviewed annually and periodically, informed by a range of data and feedback, to ensure quality and standards of programmes and to make improvements to programmes.

External Examining

External examiners are appointed to programmes to assess whether:

- the University is maintaining the threshold academic standards set for awards in accordance with the FHEQ and applicable subject benchmark statements
- the assessment process measures student achievement rigorously and fairly against the intended outcomes of the programme(s) and is conducted in line with University policies and regulations
- the academic standards are comparable with those in other UK higher education institutions of which external examiners have experience

- the achievement of students are comparable with those in other UK higher education institutions of which the external examiners have experience

and to provide informative comment and recommendations on:

- good practice and innovation relating to learning, teaching and assessment observed by external examiners
- opportunities to enhance the quality of the learning opportunities provided to students

Please note:

This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content, teaching, learning and assessment methods of each module can be found in module and programme guides.
