### **Programme Structure**

#### **Programme Structure Description**

Students will be offered the opportunity of study abroad at Level 5. Students can choose either Option A or Option B unless they undertake the Sandwich Year, in which case Option B is not available: Option A: replacement of 60 credits of Level 5 with appropriate study abroad. The programme will offer the opportunity of 60 credits of study at Level 5. Students will be enrolled on a 600 credit honours with study abroad programme. A 60 credit Level 5 study abroad module (5110LBSBW) will normally replace the semester 2 modules on the standard programme. This study abroad should cover the same learning outcomes as the modules being replaced. The modules to be studied in the host institution must be agreed in advance. The Level 5 mean for the final award mark will be calculated based upon the 120 credits at Level 5. Option B: additional study year abroad following Level 5 The programme will offer the opportunity of an additional study year abroad following Level 5. Students will be enrolled on a 600 credit honours with study abroad programme. Of those 600 credits, 120 will be taken via a Level 5 study abroad module (5111LBSBW) the modules to be studied in the host institution must be agreed in advance. The Level 5 mean for the final award mark will be calculated based upon the 240 credits at Level 5. Sandwich Year The aim is to provide students with an extended period of work experience at an approved partner that will complement their programme of study at LJMU. This will give the students the opportunity to develop professional skills relevant to their programme of study, as well as attitude and behaviours necessary for employment in a diverse and changing environment. The placement year will follow Level 5 and students will be enrolled on a 600 credit honours sandwich programme and take the module 5112LBSBW (Sandwich Year-Business with marketing, finance and international business management). The Level 5 mean for the final award mark will be calculated based upon the 240 credits at Level 5. The options 5101LBSBW and 6101LBSBW modules are only available to level 5 and 6 direct entry students.

### Approved variance from Academic Framework Regulations

#### Variance

This programme has an approved variance to the Academic Framework to deliver 4 x 30 credit modules at Level 3.

### Teaching, Learning and Assessment

The acquisition of core knowledge is achieved through a range of teaching methods including lecture, seminar, tutorial and workshop. The core knowledge and understanding required for the programme determines the teaching methods used within modules. For example, lectures may be used to introduce core theories and concepts, with seminars, tutorials and workshops being utilised to build on core theories and explore in more detail further concepts, ideas and 'real-world' business issues. The ability for students to consolidate their learning has been considered and developed within modules. As well as potentially using workshops, tutorials and seminars to practice and further explore theories and concepts, students will also develop their learning through on-line activities and directed reading. In formulating the assessment strategy, the programme team aims to achieve an appropriate match between teaching and learning methods and assessment tasks in order to ensure that the programme offers variety in its assessment. The provision of formative assessment and feedback has also been considered within modules in order to provide students with the best opportunity to develop their knowledge and understanding of key subjects. Assessment methods for the programme include portfolios, presentations, research case-study, poster campaigns, on-line reflection, tests, essays, reports and examinations.

### **Opportunities for work related learning**

The four elements of Work Related Learning (WRL): 1. Learning about oneself 2. Learning and practising skills 3. Experiencing the world of work 4. Experiencing and learning how to learn and manage oneself in a range of situations will be addressed through the continuing development of graduate skills that are embedded into the programmes as well as via campus based work related learning. With respect to elements 1, 2 and 4 the Team are of the opinion that the comprehensive mapping exercise of the graduate skills clearly demonstrates that these elements are incorporated into the Programmes, as all the skills will be taught, practised and assessed via the core modules. This approach provides students with an opportunity to follow their pathways at Level Five and Level Six that will enable them to further develop those skills that they identify as being important to them. In relation to element 3, this is achieved on the Programme via the optional Placement/ Year abroad. The programme also has strong employer involvement. Many modules have guest speakers from industry.
