Opportunities for work-related learning (location and nature of activities)

The four elements of Work Related Learning (WRL):

1. Learning about oneself
2. Learning and practising skills
3. Experiencing the world of work
4. Experiencing and learning how to learn and manage oneself in a range of situations

This will be addressed through the continuing development of graduate skills that are embedded into the programme as well as via campus-based work related learning.

With respect to elements 1, 2 and 4 the Team are of the opinion that the comprehensive mapping exercise of the graduate skills clearly demonstrates that these elements are incorporated into the Programme, as all the skills will be taught, practised and assessed via the core modules.

The programme also has strong employer involvement. Many modules have guest speakers from industry.
